MUTTON BROIH SOUP for Merchants Lunch this morning at the New MoLure House Sample Rooms.

Amusements—Abbatt Opera Company.—Of this troupe the Boaton Journal says: "The Emma Abbott English Opera Company has crowded the Park Theatre every night during the week, but the audience was larger, if possible, last evening than on any previous occasion. The first performance in this city of Victor Masses "Paul and Virginia" was the attraction. The presentation gained fresh favor for the energetic and enterprising young American singer and her troupe, as well as a large measure of praise for the work itself. Whether the orchestration of the opera has been made in this country from a purioforte score, as has been alleged, or not, the music is presented in an impressh...lolorle score, as has been alleged, or not, the music is presented in an impressive form. We can readily believe, however, that the instrumentation is not altogether as the composer intended it, although the adaptation has been done very cleverly and probably without the least violence being done to the vocal score."

THE JEWISH NEW YEAR.

ition of Ros-Ha-Shonah by the Yesterday was the Jewish New Year-Rosh-ha-Shonah. The day commences on Sunday evening. The commemoration of the day is celebrated with high regard wherever a Jew can be found. The tenacity with which this ancient people retain their hold upon their faith is unparalleled in the history of any people that has ever habited the globe, and the festival just ushered in, is, next to one, the most sacred which

in, is, next to one, the most sacred which they recognize.

In the large cities of this country and Europe, where the Israelite stands out pre-eminently in at least a commercial sense, the importance of the day has a large influence upon all mercantile transactions, as few, if indeed any, of the large interests controlled by these people, meet with any attention on that day.

Here the day has less importance than in some places, but Wheeling's large number of Israelites engaged in various lines of business all observe the day sacredly. Their stores were closed yesterday, until 6 r. m., and a card on the door announced the reason.

The new year, called Rosh-Hashonah

was initiated Sunday evening at sunset being according to the calendar of the He brews the first day of the month of ?ishri 5641, and is claimed as being the anniver sary of the creation of the world. The Jews have celebrated the day as s

sary of the creation of the world.

The Jews have celebrated the day as a national holiday since the neighborhood of the year 1490 B. C., about the time they made their exodus from the cruel Egyptian bondage, and ever since that time, whether peace, with all its accompanying blessings, attended the Wandering Jew, or whether war and oppression with all their curses, blighted his history, he has maintained a strict adherence to the command found in Numbers, xxix:

"And on the first day of the seventh mouth shall be unto you a holy convocation; no servile work shall ye do; a day of blowing of the cornet, it shall be to you."

From this precept it will appear that upon this day the Hebrews are ordered to sound the cornet, or as they call it the Shophar, which is a simple ram's horn, blown to accord with sweet musical sounds, to announce the breaking of the civil year, and according to opinion the creation of the universe; it is thought that the cornet or horn is mentioned in the

the cornet or horn is mentioned in the Scriptures as the appropriate instrument with which to arouse the enthusiasm of what in time might become a dormant o lethargic spirit, because the same article was employed by the Orientals in calling the troops to prepare for war. Through-out the whole of the fabric of the Jewish laws can be found a disposition to perpet uate the symbols and emblems familiar to those who first received them.

taste the symbols and emotems inminar to those who first received them.

The seventh mouth of the Hebrew calendar, Tishri, invariably counting thirty days, usually corresponds with the second half of September and the first half of October of the Gregorian count. It will thus appear that the anniversary of the New Year this time is unusually early in its date, according to the modern calendar. Rosh-Hasbonah is called in the Bible Yom Altachron, a day of memorial, signifying that it is the duty of all adherents of the faith of their fathers to ask forgiveness of the Almighty for the transgressions of the year just closed. It is also called Yom Tururo, "a day of blowing of trumpets," and according to the chapter, of Numbers above referred to. The ancient rabbis also styled the New Year "A day of trial to the soul," and they said, "A day of trial to the soul," and they said, arguing to their ideas, that on this day the world was brought into existence; this is the day on which the Great God causes all His creatures to stand in judgment be-

fore Him.
Rosh-Hashonah is the first of the ten

Rosh-Hashonah is the first of the ten days of penitence which immediately precede the great Fast day of the Hebrews. Such is the history of the New Year of the ancient people, as handed down to us from unpolluted sources.

Yesterday ushered in the Jewish year 5641. At the Synsgogue in this city Rabbi Gerstel lectured in the forencon on "Our Future Life.", A lecture was also given last evening. Other exercises suitable to the day were held, both of a religious and social nature.

BELLAIRE BRIEFS .- "No smoking" is the rule of street cars; but ours carry their smokers on the platforms. We have seen one with smokers before and behind, the car moving in a cloud of tobacco smoke, the ladies forced to take it, because the driver himself was puffing away at acigar.

J. B. Shannafelt is at home. He was engaged Monday looking up evidence tending to clear his son of the charge of killing Cline Hamilton. The examination of this case takes himse before the Mayor.

killing Cline Hamilton. The examination of this case takes place before the Mayor Tuesday morning.

There is some trouble at the Goblet Works. The employes all went out on a strike. The particular difficulty at this time we did not learn.

SPECIAL NOTICE

To Sewing Machine Agents and Dealer To Sewing Machine Agents and Dealers.
On July 21st, 1880, we notified Messrs.
Mack Bros. that we would not supply them with the New Home Sewing Machines after September 1st, believing that our machine, to be properly represented, should be in the hands of parties not committed to any other company, who would give it that time and attention its merits demanded. Being aware of the superior excellence of the New Home, and knowing that a much larger business can be excellence of the New Home, and knowing that a much larger business can be done in the territory formerly controlled by Mack Bros., we have assigned the same to Messrs. Weaver, Lozler & Stokes, of Cleveland, O. After receiving the notice slluded to, Mack Bros. urged us repeatedly to reconsider the matter, but we did not feel willing to do so under the circumstances. Having thus failed to secure a continuance of the agency, they issued and circulated among their agents a circular, under date of August 24th, 1889, the contents of which are damaging to our interests, and does great injustice to the well established reputation of the New Home. The facts in the case are as stated above; agents and dealers can draw their own conclusions.

KIDNEY AND LIVER CURE.

To the Readers of the Intelligencer.

It is well known that hot weather brings sickness and that the greates care is necessary to prevent disorders even on the part of those most healthy. What there is in the heat that should cause disease cannot certainly be known, but cholera, dysentery, debility, lassitude, vertigo and many other known, out choiers, dysentery, decinity, institute, verifye and many dis-sudden and dangerous maladies come every season and cause great suffering and thousands of deaths. Few people go through the Summer without unpleasant symptoms. The mouth becomes dry and parched, the tongue furred with white, the pulse irregular, the head feverish, the body cramped and limbs swollen and tired. Ladies especially, with their natural delicacy and tendency to female troubles, find the hot weather almost unbearable, while little Children are dying every day from exhaustion and because Parents neglect precaution and care. A prominent and well known physician of New York asserts as his positive belief that more than three-fourths that these secretionary organs, which, by being out of order cause so much trouble, are the kidneys and liver. The brain controls the life, but the lower part of the body rules the health.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus prevent the many dangers of the Summer. That vegetable (a West India leaf,) is used as the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are deranged. For all unlary complaints of either sex it is infallible. For all bilious all timary complaints of either sex it is invaluable and every person of care it is certain. For the hot season it is invaluable and every person of care and intelligence should not fall to keep Warner's safe Kidney and Liver Cure near at hand, and use it upon the approach of the slightest symptoms. It may save your life or that of some dear friend; it will certainly prevent much suffering. It is for sale by druggists in all parts of the world; be careful and take no other. "A word to the wise is sufficient."
